WCHS Launches WinnHealth Record

A new Electronic Health Record (EHR) that will transform patient care.

Winnebago, NE – February 1st, Winnebago Comprehensive Healthcare System successfully launched **WinnHealth Record**, a modern Electronic Health Record (EHR) leveraging cloud technology and AI to keep patient care at the forefront of innovation. WinnHealth Record is a web-based platform designed to enhance experiences and elevate care through improved connectivity, efficiency, and security.

Launching WinnHealth Record is a significant step forward in streamlining healthcare services and ensuring seamless coordination between providers and their patients. The system prioritizes security of health records, enhances scheduling and appointment reminders, facilitates better communication across departments, and creates a centralized registration process that simplifies return visits and reduces wait times. WinnHealth Record propels WCHS into a new era of digital healthcare, using today's technology to enhance patient experience and care coordination.

“This transition allows for significant improvements to WCHS’s functionality, collaboration, automation, security, and patient safety across all services, giving our patients the exceptional healthcare experience they deserve,” explains Austin Schanzenbach, Chief Transformation Officer and Project Lead.

Throughout the next several months, WCHS will be refining workflows and optimizing the system in the implementation phase. The staff will continue to strive for a seamless transition, they appreciate patients’ patience during this adjustment period. Those with appointments or the ability to call ahead to schedule an appointment in February are encouraged to do so. For the time being, Walk-in/Flex appointments will be limited to those who are sick or with urgent care needs. Please bring updated insurance cards and allow for additional time during visits. For any questions or concerns, patients can call 402-745-3950.

As a next step, WCHS will be launching **WinnHealth Portal**. WinnHealth Portal will be a user-friendly patient portal platform that will empower patients with the ability to view their chart and better manage their healthcare. More information about this patient portal is coming soon!

###

The Winnebago Comprehensive Healthcare System (WCHS) is dedicated to creating and sustaining a healthy community in Winnebago and all the populations we serve. Our organization provides an

integrated approach to medicine by offering care services that are compassionate, innovative, and culturally-centered. Our goal is to lead the nation in health for indigenous people by challenging the culture of healthcare for the 10,000 Native Americans who live on the Winnebago Reservation and in the surrounding region. The rural healthcare services we provide include renowned acute care hospital services, a robust primary care clinic, and impressive prevention programs designed to educate, encourage, and support the mental, environmental, social, and physical wellness needs of the Winnebago community.
